**Re: Seating Inc.'s Chairs that pass the GSA FNEW83-269E Intensive use Test**

Seating Inc.'s Intensive use products (*350 Intensive Use and 550 Generous Fit categories*) have been tested by Intertek ETL Intela and models have been determined to have passed the GSA FNEW83-269E Intensive Use Test.

The following models have been tested and pass the GSA FNEW83-269E Intensive use Test:

**M510 / M511 Q51** – Monterey Task 550  
**Z510 / Z511 Q51** – Zircon II Task 550

**C310 / C311 Q36** – Contour Task 350  
**E310 / E311 Q36** – Encore Task 350  
**M310 / M311 Q36** – Monterey Task 350  
**P310 / P311 Q36** – Pearl II Task 350  
**Z310 / Z311 Q36** – Zircon II Task 350

Below is a comparison chart of what the GSA Intensive Use testing requirements are for passing, compared to a BIFMA test. This is to help demonstrate just how tough the testing requirements are.

	<b>GSA I-U Test</b>	<b>BIFMA Test</b>
Tilting Test	1,000,000 cycles	Not Applicable
Back Test	175 lbs. Back Pull 125,000 Cycles	200 lbs. & 300 lbs. 1 Pull at each weight
Drop Test	1300 lbs. 300,000 cycles	125 lbs. 100,000 cycles
Horizontal Arm Test	250 lbs. 100,000 cycles	150 lbs. & 200 lbs. 1 Pull at each weight
Vertical Arm Test	200 lbs. 175,000 cycles	150 lbs. & 200 lbs. 1 Pull at each weight

If you require further information or have any questions, please contact the factory at 800.468.2475 or email Doug Hart at [dhart@seatinginc.com](mailto:dhart@seatinginc.com).
