hover table

hover standard & mini heights

Adaptable seating units are versatile, portable, and durable

- standard height (18") or mini (15" for child-centered spaces)
- square or round (18", 24", or 30")
- Hover accommodates people of different sizes and allows seating for more than one person
- 400 lb weight capacity (30" weight capacity is 800 lbs)
- reinforced seat top with durable wood frame and inner supports that won't break down or sag over time
- comfortable 2" thick, high-density foam with upholstered seat top and foam wrapped sides
- concealed carpet casters make Hover easy to move (optional glides available)
- single fabric covering or an upholstery combination
- custom sizes available

Innovative, collaborative seating products and matching tables are built strong and made light to move easily. Mix and match together or combine with other Make Space products (Dock, Go2, Kudl, and Tables) to coordinate and create unique public spaces where people can work, relax, and engage.

Manufactured in NY with American made components
