Synchro Plus With Adjustable Seat Depth

Q25 ASD BAA

Mechanism Instructions

- ① **Adjustable Seat Depth (OPTIONAL):**
Lift tab up to allow for adjustment of seat forward & back. To lock seat in desired position, push tab back down.
- ② **Tilt Lock Adjustment:**
Turn Forward (Clockwise) to release lock and tilt freely.
Turn Rearward (Counter Clockwise) to lock tilt position.
- ③ **Pneumatic Lift Adjustment:**
Lift tab up to adjust seat height
- ④ **Tension Adjustment:**
Pull the handle out away from the seat, then turn the handle forward to tighten, or rearward to loosen.
- ⑤ **Back Angle Adjustment (OPTIONAL)**
Turn lever toward front of chair to change back angle to a closed back angle. Turn lever toward back of chair to change back angle to a more open position.

All adjustments are made while seated.
