

Q25 - Superior Synchro

Mechanism Instructions

① **Tilt Lock Adjustment:**

Turn Forward (Clockwise) to release lock and tilt freely.
Turn Rearward (Counter Clockwise) to lock tilt position.

② **Pneumatic Lift Adjustment:**

Lift tab up to adjust seat height.

③ **Tension Adjustment:**

Pull the handle out away from the seat, then turn the handle forward to tighten, or rearward to loosen.

All adjustments are made while seated.
