

T4 Arm

4-Way Adjustable Arm

Height Adjustment:

Activated by a side button located under the arm pad. Features 3 1/8" vertical travel to help relieve upper back and shoulder fatigue.

Width Adjustment:

Infinite locking 2" horizontal arm adjustment. Customize arm support for Every Body.

Forward Movement:

Arm pad moves 1.57" forward. Friction-activated adjustment, allows user to be closer to their work surface while maintaining effective use of the backrest.

Arm Swing:

Arm pad pivots inward 20° or outward 20°. Provides the user with more natural forearm support and motion common to various tasks such as keying and mousing.
